

Bluebonnet School 2010 Summer Day Camp

The Greatest Summer Day Camp in Town!

We empower children to learn more about the world around them. Our summer sessions are filled with science experiments, creative activities and many opportunities for children to expand their awareness of the world. Their days at Bluebonnet will be full and fun with field sports on our spacious playing fields and playground time on our exciting playscapes. Cool and fun times will be had at Bluebonnet's on-site pool and waterpark.

Wild West

June 7 - June 18 (2 Weeks. Full Payment Due May 1.)

What was life like 150 years ago on the Texas frontier? We'll visit Pioneer Farm, a living history museum of the 1850s where we will see a working blacksmith, visit an old town, an Indian village and see horses and cows. We will make animal prints, go on a wild west scavenger hunt, and learn the two-step. Get ready for a hoe-down with an outdoor picnic with games, dancing and good food.

Building and Creating

June 21-July 9 (3 Weeks. July 5 is a holiday. Pymt. Due May 15)

You will have a chance to drip art like Jackson Pollock, hit your highest note in karaoke, and even take out our toolbox to hammer, nail and build our wood creations for all to see. We'll spend a day at a ceramics studio, and back at Bluebonnet we will do some cooking with the help of a chef, spreading, stirring, mashing, kneading measuring and sorting as we cook great recipes.

Be a Scientist

July 12 - July 23 (2 Weeks. Full Payment Due June 1.)

We will learn about different inventors and scientists and what they have created. We will mix different solutions to create Oozing-Slime, a bubbling potion and also an awesome smoke illusion used in movies. A scientist from Mad Science will join us for a very special science experiment. On our trip to Austin Children's Museum we'll see some great science exhibits and even play Big Games.

Jurassic Park

July 26 - August 6 (2 Weeks. Full Payment due June 15.)

Make no bones about it; we all love dinosaurs! Transform yourself into a paleontologist and answer mysterious questions about these enormous creatures. From what they ate to how big they were, we will learn lots about dinosaurs. Mad Science is back to help us learn more about digging and recovering fossils. Then it's off to the park to dig up some dinosaur bones in the sand. We will make dinosaur prints and create our own dinosaurs.

3 - 2 - 1 Blast Off!

August 9 - August 20 (2 Weeks. Full Pymt. Due July 1.)

Join us on a fast-paced adventure as we explore all kinds of aircraft from the simplest to rocket ships and learn what it was really like to travel to the moon. We will make, design and build our own flying machines. We'll learn about how the first airplane was built. Then we are off to the Georgetown airport to explore the control tower, hanger and the planes that take off there.

2010 Summer Day Camp Application

Send or bring this application form to Bluebonnet with payment.

Name of Child _____ Birthdate _____

Child's address _____
No. & Street, Apt. # _____

City _____ State _____ Zip _____

T-shirt Size (Circle one) YXS YS YM YL S M L

Bluebonnet School 2010 Summer Day Camp

- **Waterplay** every day is offered on our own exciting water park or in our own on-site pool
- **Field trips** will take us to interesting places, and we'll have camp visitors, such as Mad Science.
- **Small groups** of children are divided by age and led by mature, experienced counselors.
- **Delicious lunch and snacks** prepared in our on-site kitchen by our own chef and served to your child.
- **Two-and-three-week sessions** give families flexibility to plan their summers.
- **Sports & games** on our spacious, shady playing fields are part of our weekly routine.
- **Computers, science, cooking & art** projects provide a wide range of fun activities.
- **Internet viewing** of camp activity rooms is free of charge to parents.
- **Swimming lessons** are offered on site and are taught by a Red Cross certified instructor.
- **Outdoor and air-conditioned indoor** areas give campers a wide range of activity spaces.
- **Sunscreen** is provided at no extra cost and is applied daily for your child's protection.

Parents Need to Know

Parents need to be aware of who licenses their child's summer program. Many summer camps are not regulated by any Texas state agency at all because the law does not require it. There is virtually no oversight at all of completely indoor camps in Texas.

Bluebonnet is licensed by Texas Dept. of Family and Protective Services (TDPRS), which regulates programs operating more than 120 days a year. Facilities it regulates must always be in compliance with its 260-page Minimum Standard Rules.

Why is an Accredited Program a Better Place for Your Child?

In an NAEYC accredited program, parents will see frequent, warm interactions between teachers and children, smaller group sizes, well-trained teachers, regular two-way communication, nutritious meals and effective administration. Requirements of NAEYC far exceed the minimum requirements of TDPRS licensing.
